Position: Professional Archeologist
Location: United States
Travel: Required for assignments

This is a remote position

Environmental Assessment Services, LLC (EAS) is a nationally known, scientific environmental characterization company based in Eastern Washington since 2005. EAS is currently accepting applications for an Archaeologist to support cultural and historic resources work in the Pacific Northwest.

Essential Functions: Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

- Ensure that cultural resources work complies with applicable cultural resource laws and regulations
- Work with Project Managers and/or project staff to coordinate information needed for cultural reviews
- Prepare National Historic Preservation Act (NHPA) compliance reports and supporting documentation necessary to protect or mitigate significant archaeological, historic, and Native American sites
- Conduct field work (e.g., survey, site testing, site evaluation, data recovery, construction site monitoring, and archaeological site condition monitoring) as required to meet project schedules
- Contact regulatory agency personnel such as the Washington State Historic Preservation Office (SHPO), Oregon State SHPO, Idaho SHPO, as needed, for cultural reviews
- Interact with area Tribes and other interested parties
- Interface with National Environmental Policy Act (NEPA) reviews and provide documentation to aid in NEPA determinations
- Serve as peer/technical reviewer for internal and external documents to ensure quality
- Conduct site condition monitoring or otherwise participate in federal agency Section 106 and/or 110 programs
- Participate in Cultural Resources planning efforts (e.g., contractor interface meetings, Programmatic Agreements, review Master Plans, etc.)
- Assist with management of the archaeological collections

Minimum Job Qualifications:
• Must meet the Secretary of the Interior’s Professional Qualification Standards in Archaeology
• Must possess a master’s degree or higher in Archaeology, Anthropology, or closely related field
• Must have at least 3 years’ experience in conducting cultural resource investigations with increasing responsibilities
• Project Management experience

Environmental Assessment Services, LLC is an Equal Opportunity Employer: Minorities/Women/Veterans/Disabled and other protected categories.
